Design and Fine Arts

COURSE DESCRIPTION

Design education teaches theory and application in designing products, services, and environments. It encompasses various design disciplines, such as graphic design, user interface design, web design, packaging design, industrial design, fashion design, information design, interior design, sustainable design, transgenerational design, and universal design. The values and attitudes underlying modern design schools differ among the different design schools.

Design is fundamentally about problem-solving. Design education applies methods, prior knowledge, and natural talent to solve new problems.
