COURSE DESCRIPTION

A career with the amalgamation of creative freedom, expression and technology. Architects work in a range of establishments. From design to construction, they dwell in both the different worlds. With a bachelor's degree, an Architect opens doors for himself from Production to Academics. A professional in this field creates designs and models for a variety of projects, such as commercial buildings, residential homes, public spaces, and urban landscapes, according to the customer's requirements. Statistics show that the employment of urban and regional planners grew 13 per cent by 2016, which was faster than the average for all occupations. With the increase in the development and improved infrastructure, including housing, roads, sewer systems, parks, and schools, there is a high demand for qualified Architects and Planners.
