Director's Message

Dear Readers,

It is my earnest desire to pen this kind note of immense gratitude to all of you for your continuous support at all times and for handholding us in all ways by accompanying us in our mission of empowering the youth of today through various trainings and skills.

Our motto is a conscious choice we have collectively made at Team Don Bosco Vazhikaatti to "Reach out to lift up" the youth and provide them with a promising future. The youth are engulfed with numerous job opportunities unlike 15 or 20 years ago but this calls for development of certain key skills that can help them get suitable jobs and this is where we at DBV find our mission. The challenges for us is to enable and to equip them to make a right choice about their careers. They can succeed in life, only if they choose a right job in this present society. Choosing a right career is not to survive but to serve. Serving is the inborn nature of every person. It fulfils the purpose in one's life. Lifting up oneself is to lifting together as a society.

John Holmes says, "There is no exercise better for the heart than reaching down and lifting people up." Therefore, let's reach out to people to serve them and it is my earnest prayer to each and everyone of you to help us to help them in all ways possible.

Praying for your wellbeing and wishing the best for you now and at all times.

Best regards,

Fr. James Raj, SDB
